

# Payments

Right on the Money

## Serious question: Why is getting paid such a hassle?

Third-party payment systems are the norm for vacation rentals. That wouldn't be so bad if they all worked the same way and played by the same rules. But even then, all your marketing builds to a transaction that takes place entirely outside of your PMS—and your control. It doesn't make much sense. Plus, multiple third-party processors and gateways means more chances for system failures, downtime, or data breaches.

**Track Payments lets you process and manage payments from within Track.** No more missing a chargeback or toggling between systems to reconcile your payments and deposits. It's simple, secure, speedy, and supported by Track.

- A centralized system with less risk for downtime and errors
- Quick and easy onboarding that only takes a few minutes of your time
- Competitive rates with no hidden fees
- Expert help when you need it with a dedicated payments support team
- Ongoing development with exciting, new features you won't find anywhere else
